GSB is an independent Maltese law firm and services provider. The firm is structured and driven to provide a broad range of legal services which meet the highest professional standards.

GSB is particularly focused on the provision of advisory services to our clients. The firm is specialised to provide advice in connection with Maltese and international tax, corporate, trusts and foundations, shipping and aviation, funds, gaming, art and culture, intellectual property and estate planning. GSB is also fully equipped to assist in the implementation and ongoing administration of any corporate or other arrangements and any restructuring exercises, whether tax driven or otherwise.

The firm's clients are diverse and active in various industries, both locally and abroad. Still, we recognize and appreciate that a singular common characteristic defining our clients is their demand for our quick reaction and effective customised response which properly addresses their requirements and interests as they arise.

As such, GSB is committed to provide its clients with a personalised service of the highest quality and to do so speedily but with due care and diligence. Our structure is such that we offer a 'one-stop' solution which is professional, efficient and cost-effective.

To this end, an affiliated and locally incorporated company, GSB Fiduciaries Limited, is fully licensed to act as a trustee and to carry on other fiduciary activities. In addition, GSB has developed and enjoys an excellent working relationship with a medium-sized local accounting and audit firm which provides, inter alia, audit, accounting, payroll services and risk management and internal audit services.
