Spaans & Partners provides specialist tax, legal and business advice services for individual and corporate clients, including the Dutch health care sector. It is our mission to provide top quality services to individual and corporate clients whilst maintaining a small organisation and thereby offering 'high value for money'.

Both partners each have over 30 years experience in legal, tax and accountancy professions both in employment at big-4 firms and as partners of the firm.

We are proud to be a (board) member of AITC enabling us to include up-to-date international tax information in our services to clients.
