The firm Costa, Álvarez, Manglano & Associates, which was founded in 1993, is a medium-sized professional firm specialising in legal and fiscal advisory and consultation services for businesses.

The firm has offices in Valencia and Castellón, and an office is being planned for the near future in Madrid. This level of territorial coverage will ensure an even better service to our clients.

Our staff, many of whom have had experience in multinational firms, are all equipped with post-graduate degrees from top Spanish business schools and universities. They also receive ongoing training in the form of courses in which they perfect their skills and keep informed of new developments in their area of work.

Our activities are centered around the three main areas of business legislation: taxation, employment and commercial law. In these areas we provide not only advisory and consultation support, but can also offer a complete litigation service.

Our professional services are in demand in key business sectors in the Autonomous Community of Valencia, such as:

- Real property (land management, development, construction and sale)
- The tile industry and auxiliary sectors (glazing, machinery)
- Agricultural produce (production and sale)
- Hotel and catering
- Engineering and industrial design
- Metallurgy and mechanical engineering sector
- Trade.
